THE PROROGATION.

Ten months of legislation! Ten continuous months of debate and law-making! Surely the Statute Book must have grown beyond all proportions. Ten months o springtime tillage - surely there are not reapers to gather in the enormous harvest What sheafs, what shocks, what stacks of political grain rise up before the imagination of the hopeful but perplexed husbandman.
The harvest is at hand, the prorogation comes, and His Excellency gathers in the crop of the past year. It is meet that the important occasion should be conducted with all the pomp and gravity which custom has time out of mind awarded it. When the oriental fruit crop is ready for gathering the stately herald at the head of his grand cession, accompanied by fanciful flourishes of telephonic trumpets, majestically an nounces the important fact. "In the name of the Prophet," says this illustrious promulgator of pleasing intelligence -" name of the Prophet-Figs." Ordinary and unsentimental mortals may think the announcement searcely worth the ceremonymay in fact feel disgusted that so much "pomp and vanity" should be employed in heralding a very common place event; but they are very ordinary mortals indeed, and have no appreciation of the proprieties. When His Excellency ascends the steps leading to the hall of wisdom in which the heteroclite heptarchy sit, it is only right that military honors should be shown and that the national anthem should burst forth from the brazen band; when he takes his place on that sacred bench which represents the Throne, it is meet that every head should bow, and every heart beat with awe; when he reads that list of laws under which the people of Vancouver Island are henceforth to live, it is the well-founded etiquette of the occasion to preserve a breathless silence. We are glad to say the people have performed cir part of the ceremony, and we have no doubt Governor Kennedy exercised his func tions as well as Royalty itself. But what shall we say of the " speech from the throne ' -what shall we say of the legislative harvest "In the name of the Prophet" there are not even "figs." The orientals, with all their imposing formalities, have something sweet and substantial to offer; but here is a bubble without the soap-suds; here, instead of stack of nutritious grain, we are presented

with a measure of the most undoubted chaff the shell is placed in our hands without the oyster, the stone without the plum. Out of the fifteen Acts, the titles of which His Excellency read to both Houses on Friday, will the public believe there are only six that are not money bills? and out of even these six there are two that are merely nominal—the Telegraph Amendment Act and the provisional Act for electing Mayor and Councillors. The other four are the Land Registry Act, the Juries in Civil Cases Act, the Common Schools Act, and the Barristers and Attorneys Act. We venture to say, in the whole history of colonial or any other Government, there has never been so gross an outrage as this practised upon any representative Assembly. Out of all the numerous and we must say excellent measures, which were introduced and carried through the House the present session. His Excellency in the pomp and parade of Royalty, presents us with the beggarly offering of four Acts of Legislature! In proportion, however, as the Executive has been determined to oppose the popular will on ordinary matters of legism lation it has shown its anxiety to concur in every conceivable scheme for raising revenue no less than nine bills, either in the form of bills of supply or bills of taxation having We cannot say what were His Excellency's feelings in reading the speech of prorogation on Friday last; but we feel nvinced there was not a spectator present who did not sink with shame at the pitiable burlesque that was being played with public interests. There was not a person lwho did not ask himself where all the labors of the people's representatives had been hidden. Every one knew that a Homestead bill bad passed the Assembly, protecting the wife and family of the unfortunate or dissoluteevery one was aware that a successful attempt had been made to abolish imprisonment for debt; that bills had passed the Lower House to protect the artisan by a lien law; to enlarge the political privileges of the population by an amended franchise; to protect the public against false weights and measures to give to justices of the peace an extended power of adjudication in civil cases; to preserve the estates of intestates; to regulate the descent of real property; and to abolish the present restrictions and anomalies in re-lation to foreign debts. Where were these and numerous other measures the Assembly had, after the expenditure of much time and labor. completed and forwarded to the Upper House? His Excellency could have answered-" Killed, through my orders, or with my consent." Never was there a more unsatis factory termination to any legislative sitting. It would seem indeed that the only vocation the people's representatives had was to vote whatever money the Executive asked, and then to go about their private affairs. They had no business to make laws like the Homestead bill, that would keep men in the country; no business to prevent the disgrace-ful practice of skedaddling, by the abolition of imprisonment for debt; no business in fact to do anything that was practical to benefit the people or the colony. The next prorogation speech we will guarantee, how-ever, will contain a different result, and show less money voted and more work per-

TO THE BUITOR OF THE BRITISH COLONIST .-TO THE EDITOR OF THE BRITISH COLONIST,—

Srn,—My attention being called to a "Card" in this morning's CoLonist regarding the license question in Johnson street, and signed "P. Mancta," I deem it proper to answer il, presuming that I am the person referred to as employed by him, and more particularly as I am fully acquainted with the facts of the case.

There are always two sides to a story. In the first place, Mr. Manetta states that he has had granted him no less than three retail liquer licenses, one for Yates street, one for Johnson street, and one for Sooke. I will take this for granted, but I would ask Mr. Manetta in return if the Magistrates, when they so liberally granted him the Johnson street lincense, also granted him the Johnson street lincense, also granted him a "roving commission" for the sale of liquors, or did they restrict the license, as is usuhim the Johnson street lineurs, also granted him the Johnson street lineurs, also granted him im "roving mutission" for the sale of liquors, or did they mutission" for the sale of liquors, or did they mutission? However, as usually done, to defined street the license, as is usually done, to defined street when the Johnson street license was granted Orwas for they and Johnson street, and which had connection whatever with the premises sought to be usual as a saloon next door to me. If Mo Lancetta would continue to keep the public businessed to the saloon of in a shanty in Oriental Alley, under the same license. To this also the victuallers in Johnson street would not object; but Mr. Manetta not being yet satisfied, makes another move, vir, to abandon this shanty and come again into Johnson street, on the premises next to mine, and against which I do protest, as being illegal, and likely to deprive me unfairly of a fair share of business.

against which I do protest, as being ligal, and likely to deprive me unfairly of a fair share of businese.

Mr. Manetta says "they are trying to get signatures to a petition, cic." In reply I would state that we have not only tried, but have obtained the signatures of all the parties we called on, with two exceptions; one of whom objected on the ground that he was a particular friend of Manetta's, and would not sign against him, but acknowledged the fairness of our complaint. He further asserts that on leaving his employ I opened a saloon next door to him, and that he offered me no opposition.—This is incorrect, for I did not open a saloon, but bought out an old established business, and which I contend I had a perfect right to do, and that he had no power to oppose me. One word further: does Mr. Manetts think that because he has laid out a large sum of money in Victoria that such outlay justifies him in a monopoly which reason would condemn and law prohibit? I maintain, however, that although I may not be as self-important a citizen as Mr. Manetta, yet that I am equally as good an one, and but for his injudicious rushing into print, should have calmly waited the decision of the Bench, whom I am assured will, regardless of Mr. Manetta's "dollars weight," impartially decide the subject before them.

TO THE EDITOR OF THE BRITISM COLONIST,—
SIR: I am surprised that certain parties on Johnson street's should have complained in the Police
Court, and that the newspapers should also have
stated that I am selling liquor without a license,
when I am paying for no less than three retail
liquor licenses; one for the Oriental on Yates
street, one for Johnson street, and one for Sooke.
The same parties are also trying to get signatures
to a petition with a view to deprive me of a license
which the Magistrate granted after the Superinrendent of Police had been sent to inspect my
premises, before either of the complaining parties
commenced business, a fact which one of them
knows, as he was then in my employ in the premises on Johnson street. On leaving my service
this person opened a salcon next door to me, but
I offered him no opposition, nor have I to the
beat of my belief ever opposed any application to
procure a license in Victoria. I will ask either of
the opposing parties how much they have or
pended in improving Johnson street? I have
spent \$60,000 for improvements on Johnson
street in six different houses, as is known to
everyone. Or have either of them ever paid on
cent towards prospecting the country? Whereas
I can show that I have paid \$8,000 or \$9,000 towards prospecting Fraser River, Stekin and Cariboo, besides for copper and coal mines, and an

The Infallible Remedy.

Contracted or Stiff Joints. All the medicines in the London dispensaries would barely benefit, much less cure, any chi onic cases of contracted or stiff joints; whereas if this invaluable ointment be offectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail. sorbutic Humours.—Scald Head and Skin

Diseases. Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and atomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in a least twice a day, will soon our any case of skin disease. Soldiers, sators, and miners, use this famous Ointment is all parts of the world.

Disorders of the Kidneys, Stone and Grave
In any of the above complaints more benefit may
be derived in twenty-four hours by adopting the
following simplements than is frequently brough
about in six months by any other treatment. In
bad eases if the Ointment be rubbed into the small
of the back over the region of the kidneys, it will
quickly pencitate, and, in most instances, give
immediate relief. Six or eight of the Pillsshuld
be taken nightly according to circumstances.
Diptheria, Sore Throuts, &c.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of ettength, and unfits it for the duties of life; but it is no less wonder, clust to watch the effect of Holloway's Healing Ointment, when it is used accreding to the printed directions, and assisted by appropriate doses of the Fills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return—This treatment creates sound fiesh, and therefore makes its curse complete.

Gout and Rhoumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be porseveringly followed for some time and duly assisted by powerful doses of Holloway's Fills. The casence of these diseases lies in the blood, which has fleating through each vessel the paingiving poison which vitiates and inflames every issue t comes in contact with, and produces the hot, swellen, elsstie enlargement about the joints ocharacteristic of gouty and rheumatic maladies.

THE FENIANS IN AMERICA—Mr. D'Arcy M'Gee, one of the 'Young Ireland' fugiti-ves of 1848, but now Minister of Agriculves of 1848, but now Minister of Agriculture in Canada, and one of Queen Victoria's most devoted subjects, addressed a meeting at Wexford, the other night, on the condition of the Irish in America. He warned his countrymen against expecting anything from the native Americans, who were no more pro-Irish than they were pro-Japanese. He gave a very unfavorable account of the position of the Irish in the United States, and said the half a million Irish in the Ritish provinces half a million Irish in the British province half a million Irish in the British provinces violeded a larger acgregate of sterling worth, character, and influence than the millions of their democratised countrymen put together. He advised his countrymen, if they could possibly remain at home, not to emigrate; if they were forced to emigrate then he would tell them that they might de worse than direct their course to the British provinces—

Holloway's Pills and Ointhent—Deranged Stomach, Sick Headache.—Our comfort, happiness, and security depend on the knowledge that most diseases originate from apparently a trilling beginning. and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on dis ratered digestion. They ward off, lixewise, the torturing sick headache. The Ointment should be well rubbed, twice daily, over the stomach, luver and bowels; to them if penetrates, and, aided by the Pills, immediately works a revolution as establishes perfect digestion.

HOLLOWAT'S PILLS .- Billious affections an HOLLOWAT'S PILLS.—Billious affections and atomach complaints, induced by atmospheric heat or too liberal diet, if not early checked, are often attended with serious consequences. When any one finds his ideas less clear than usual, his eyesight dimmed and his heat diffey, while, he is indisposed for all exection physical or fleetal, he may be quite sure that he is fit immediate need of some cooling and properties in immediate need of some cooling and properties. Let him send at once for a Dux of Holloway's Pills, after a few doses of which his haft will be clear again, his spirits be elevated, and all his energies be restored. Printed directions for the guidance of patients in the use of this admirable medicine are affixed to every box.

HOLLOWAY'S PILLS.—General debility, HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach genovate, the digestive powers, purify the blood. Mill give sheight to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerfal activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that is a great biessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.

HOLLOWAY'S PILLS .- Pure blood. HOLLOWATE PLUS.—Pure 01000. As this vitial fluid, when in a healthy state, austains and renovates every part of the living system, so, when the counes impoverished or impure exerts a presisely contrary effect. It is abundantly manifest that any medicing which does not reach the circulations. that any medicine which does not reach the circu-lation can never exterminate the disease; but any preparation capable of exercising a sanitary in-diuence over the blood, must with it be carried to every living fibre of the frame. The lungs, heart, liver, kidneys, and skin, all receives benefits from its more wholesome condition. Hollowsy's puri-fying Pills operate directly, powerfully, and bene-ficially, upon the whole mass of blood, whether venous or arterial. They strengthen the atomach, exoite the liver and kidneys, expel disease and prolong existence.

HOLLOWAY'S OINTMENT AND PILLS.—Filtulas, Piles, Excoristions, and Strictures, are speedily relieved and ultimately removed by applying this lointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unsheeked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applications of this healing Ontiment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

Holloway's Cintment and Pills, a certain remedy for diseases of the skin—Ringworm, scurry, serofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Ilollowsy's Cintment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eraclicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalis, glandular swellings, uleerous wounds, rheuman, contracted and stiffjoints. These medicines operate mildly and surely. The sure effected by them is not temporary or apparent only, but complete and permanent. HOLLOWAY'S OINTMENT AND PILLS, a certai
